## When filing an Application for Limited Certificate of Practice, include the following:

1. Application for Exemption from annual professional liability insurance coverage with Pro-Demnity Insurance Company
2. Undertaking to continue Temporary Licence and Limited Certificate of Practice for one year after Substantial Performance
3. Temporary Licensee Seal Application
4. Payment of applicable fees by cash, cheque, bank draft, money order, Visa, or MasterCard

### IMPORTANT

In order to provide any architectural services in the Province of Ontario, the person providing these services must be licensed as an Architect by the Ontario Association of Architects (OAA) and the person or entity must be the holder of a Certificate of Practice issued by the OAA. However, a Sole Proprietor Temporary Licensee is not required to hold a Certificate of Practice.

In the case of an Architect who is licensed in a jurisdiction that does not have reciprocity with the OAA, the process of Temporary Licence and Limited Certificate of Practice under the *Architects Act* is available for the purpose of providing architectural services on a **specific project. This option requires collaboration with an Ontario holder of a Certificate of Practice/OAA member.**

When an Architect licensed outside Ontario is approached by a client to provide architectural services in Ontario, and is contemplating doing so, it is mandatory that the legislation governing the practice of architecture in Ontario be complied with. The onus is on the licensed Architect to contact the OAA to obtain the pertinent information and fully comply with the requirements.

Prior to the awarding of a commission when only interviews or requests for proposals are underway, the persons or entities are advised to notify the OAA in writing by contacting the [officeoftheregistrar@oaa.on.ca](mailto:officeoftheregistrar@oaa.on.ca) that they are being considered for a commission in the province and that they will comply with the requirements for licensing immediately upon obtaining the commission. By so doing, they avoid any potential perception that the *Architects Act* (the Act) is being contravened by holding themselves out as engaging in the practice of architecture without a Licence and Certificate of Practice in Ontario.

## General

1. Allow approximately **three weeks** of processing time from the date of receipt of the completed application and all required documentation. An incomplete application will be delayed as it may be returned for completion. **NOTE: ENSURE YOU HAVE ANSWERED ALL QUESTIONS OR YOUR APPLICATION WILL BE DEEMED INCOMPLETE.**
2. All sections of the application are to be completed. The terms "Not Applicable" and "N/A" may be used where sections do not apply.
3. Confirmation must be received directly from the licensing authority that the name on the application for the Limited Certificate of Practice is authorized to practise architecture in that jurisdiction. Where the licensing authority does not regulate the practice of architecture by corporations or partnerships, an applicant may submit in lieu of such authorization:
  - a) a copy of the Articles of Incorporation showing the practice of architecture as one of the corporation's objects; or
  - b) an affidavit confirming that the entity may lawfully engage in the practice of architecture in the jurisdiction.
4. The **Limited Certificate of Practice Term** is the date of issuance to anniversary date each year. An invoice for the annual fee is issued approximately one month prior to the due date for payment. The fee must be paid on or before the due date. **Failure to pay the fee may result in cancellation of the Limited Certificate of Practice.**
5. An application for a Temporary Licence and a Limited Certificate of Practice must be made for **each** architectural project, and each project must be undertaken **in collaboration** with a holder of a Certificate of Practice issued by the OAA.
6. A **Sole Proprietor** requires only a Temporary Licence and is not required to apply for a Limited Certificate of Practice.
7. A Temporary Licensee is entitled to receive a Seal **for the project** for which the Temporary Licence and Limited Certificate of Practice has been issued. Complete and enclose the application for seal and the requirement payment.
8. Applicants for a Limited Certificate of Practice are required to submit an application for Exemption from **professional liability insurance** coverage with Pro-Demnity Insurance Company. Refer to the Exemption application form included.
9. It is a requirement that the holder of a Limited Certificate of Practice **must maintain insurance** with respect to the architectural project for which the Limited Certificate of Practice was issued for a period ending one year following substantial performance of the project, therefore, the Temporary Licensee must maintain the Limited Certificate of Practice and Temporary Licence for one additional year following substantial performance of the project. **Please complete the undertaking and return with the application.**
10. Guidelines for Providing Architectural Services (Appendix 3) sets out how to proceed prior to making the application. It should be noted that the **provision of architectural services**, as defined in the *Architects Act* **prior to** issuance of a Limited Certificate of Practice and Temporary Licence may be prejudicial to the granting of a Limited Certificate of Practice and Temporary Licence for that particular project.
11. Identified in Appendix 3 are services to be provided by the **collaborating** holder of a Certificate of Practice. Details of the agreed areas of responsibility form part of the application form. Signing and co-signing the form confirms that the minimum extent of services set out in Appendix 3 are being complied with.

12. The **fees** listed below are in Canadian funds and include the Harmonized Sales Tax (HST). Visit the OAA Website page, [Methods of Payment](#). If you wish to pay via credit card, see specific instructions below.

Fees	
<b>Application for Limited Certificate of Practice</b>	
Application Fee (non-refundable)	<input type="checkbox"/> \$546.92
Annual Fee	<input type="checkbox"/> \$4,947.14
<b>Total</b>	

**Credit Card**

- 1) Complete the application package and submit by email to [officeoftheregistrar@oaa.on.ca](mailto:officeoftheregistrar@oaa.on.ca).
- 2) Visit [secure.oaa.on.ca/store](https://secure.oaa.on.ca/store) to pay the Limited Certificate of Practice application fee and annual fee by credit card. **Please note** that to pay the annual fee you will select the Limited Certificate of Practice Renewal fee under Other Fees and Items.

**13. Suspension/Cancellation of Temporary Licence and Limited Certificate of Practice**

- a) When a project is to be in abeyance for an indefinite period, upon receipt of the invoice for the succeeding year, the holder may return the Temporary Licensee seal and request **in writing** a suspension of the Temporary Licence and Limited Certificate of Practice for one year, on the basis that if the project is resumed during the course of that year, the OAA will be notified so that an invoice may be issued as at the new anniversary date. Failing such notification, an **invoice** is sent at the end of the year of suspension, and a second year of suspension may be requested. At the end of the second year of suspension, if the project is still in abeyance, the Temporary Licence and Limited Certificate of Practice are cancelled, and a new application must be made if, and when the project is re-activated.
- b) Failure to either pay the annual Temporary Licence and Limited Certificate of Practice fees or request a suspension on or before the due date for payment may result in cancellation of the Temporary Licence and Limited Certificate of Practice. In order to have the Temporary Licence and Limited Certificate of Practice reinstated, fees in arrears as well as the fees for the year of renewal will be payable.
- c) Any applicant who has payment of fees in arrears will be required to pay these fees prior to the issuance of a Temporary Licence and Limited Certificate of Practice for any other projects in Ontario.

## Appendix 3 – Guidelines for Providing Architectural Services Through a Temporary Licence and Limited Certificate of Practice of the *Architects Act*, R.S.O. 1990

References: Ontario Regulation 27, Subsection 36(1), 37(1), 38(2) AND 39(1)

### **Providing Architectural Services**

When an Architect or architectural practice located in a jurisdiction outside of Ontario is approached by a client or invited to respond to a Request for Proposal (RFP) for a project in Ontario, the Architect is required to advise the Ontario Association of Architects in writing that they will be responding to the RFP, attending interviews, etc., and, if selected for the project, will immediately make application for Licence and Certificate of Practice **or** Temporary Licence under Section 24 and Limited Certificate of Practice under Section 23 before undertaking any work whatsoever.

### **Collaborating Member in Ontario**

It is a condition of a Temporary Licence and Limited Certificate of Practice that the applicant or holder will engage in the practice of architecture, with respect to the architectural project for which the Limited Certificate of Practice and/or Temporary Licence is sought, in collaboration with an OAA Certificate of Practice (holder)/OAA member (member)

An applicant for Temporary Licence and Limited Certificate of Practice is required to complete the Application(s) and include all of the documentation stipulated. The collaborating holder/member must be named and must co-sign the Application(s).

The Application(s) contain a section to identify the areas of responsibility of both the applicant and the collaborating holder/member with respect to the project. The following are guidelines for the establishment of these areas of responsibility.

### **Guidelines re: Services**

These guidelines relate to the architectural services controlled by legislation and interrelated with local construction conditions and methods of construction or materials, all of which are part of the services provided under the Canadian Standard Form of Contract for Architectural Services. The areas of responsibility also include those aspects of the services for which the understanding and involvement of the collaborating holder/member are essential in order to carry out the services noted below.

The Temporary Licensee and/or holder of a Limited Certificate of Practice shall arrange through written agreement with the collaborating holder/member that architectural services provided under the client/member contract will be provided as follows:

#### (1) Schematic Design

The collaborating holder/member must:

- study the program of requirements furnished by the Client.
- review all applicable statutes, regulations, codes, and bylaws and where necessary review the same with the authorities having jurisdiction and report the findings to the Temporary Licensee and/or holder of the Limited Certificate of Practice.

## (2) Design Development Phase

The collaborating holder/member must:

- continue to review all applicable statutes, regulations, codes, and bylaws in relation to the design of the project and report the findings to the Temporary Licensee and/or holder of the Limited Certificate of Practice.

## (3) Construction Documents Phase

The collaborating holder/member must:

- advise the Client on the bidding documents (where the Temporary Licensee and/or holder of the Certificate of Practice is a non-Canadian practice).
- review all statutes, regulations, codes, and bylaws applicable to the design and where necessary review the same with the authorities having jurisdiction in order that the required consents, approvals, licences, and permits necessary for the project can be applied for and obtained, and report the findings to the Temporary Licensee and/or holder of the Limited Certificate of Practice.

## (4) Construction Phase – Contract Administration

The collaborating holder/member must:

- carry out the general review of the Work at intervals appropriate to the stage of construction which the collaborating holder/member considers necessary to determine if the Work is in general conformity with the Contract Documents for matters that are governed by the Building Code;
- be the interpreter of the requirements of the Contract Documents and shall make findings as to the performance thereunder by the Contractor;
- render interpretations necessary for the proper execution or progress of the Work for matters that are governed by the Building Code;
- have the authority to reject Work for matters that are governed by the Building Code that does not conform to the Contract Documents and shall have authority to require special inspection or testing of the Work by others, whether or not such work has been fabricated, installed, or completed;
- review or take other appropriate action with reasonable promptness upon the Contractor's submittals such as shop drawings, product data, and samples, for conformance with the general design concept of the Work as indicated in the Contract Documents for matters that are governed by the Building Code; and
- prepare change orders for the Client's approval and signature in accordance with the Contract Documents and have authority to order minor changes in the Work not involving an adjustment in the contract price or an extension of the contract time that are consistent with the intent of the Contract Documents for matters governed by the Building Code.

Where all of the responsibilities noted above under this phase are established by Agreement between the Temporary Licensee and/or holder of the Limited Certificate of Practice and the collaborating holder/member on matters that are governed by the Building Code, the Agreement shall also provide that the collaborating holder/member shall be kept advised of and shall be familiar with all other matters related to Contract Administration (General Review).

General Review of the Construction of the Building as required in the Building Code shall be in accordance with the Regulation under the *Architects Act*, current OAA Regulatory Notices, and/or Practice Tips.

### **Approval by Registrar**

Whereas applications for Temporary Licence and Limited Certificate of Practice must be approved by the Registrar, such approval shall be based upon compliance with all aspects of the Act and Regulation and these guidelines.

When the services of the collaborating holder/member are less than those defined above, approval of an application for Temporary Licence and/or Limited Certificate of Practice will be withheld pending a satisfactory explanation.

**Where the collaborating member is not a holder**, which is permissible only in those cases where the architectural services are not being offered to the public so that there is no contravention of Section 11(2) of the *Architects Act*, R.S.O. 1990, the responsibilities of the collaborating member must be confirmed by the owner and the Temporary Licensee/Limited Certificate of Practice, and submitted with the required Application(s) to the Registrar.

The defined services for the collaborating member are based on projects that are required by legislation to have the design and general review carried out by a member of the OAA. Adjustments can be made for those projects which do not require professional input by deleting the requirement that the collaborating member carry out general review.
