1.0 Overview of the proposed work experience

2.0 Overview of the Supervisor's* role in service/projects of the employment entity

I understand that if the project is transferred or assigned to an outside architectural entity at any point during a project, all work from that point onward may no longer be eligible for credit.

When an outside architectural entity is assigned to the project, it is important to identify the roles and responsibilities of the parties so the OAA can better understand the experience as submitted and whether the experience is eligible for credit.
