

## 2019 Annual Report Highlights Summary | Trent Society of Architects (TRENT)

---

Key activities of 2019 and initiatives of the Trent Society of Architects include:

Due to the unfortunate events that have happened this year, the Society has not been able to meet in person collectively. However, the virtual world has been our friend. Communicating has been helpful to society members for updates from the OAA, webinars for continuous education, and assistance to one another when needed. Most recently, we invited the City of Peterborough Building Division to a Charette, facilitated by Lett Architects Inc. in Peterborough. This charette discussed various formats for submitting permits and the future of online submissions. It also introduced us to the Ontario Building Officials Association – Lift Lock Division.

In the past year, we have had one new member join our Society and potentially three more to come this first quarter. That will bring the TSofA over 20 members. Our society engagement has grown over the year, mainly with constant communication via e-mail involving new ideas, future society engagement, learning opportunities, and RFP alerts. Our Society held the annual President's Dinner virtually, having members from the Northumberland Durham Society of Architects.

We will continue to provide our members with learning opportunities, we will be working together to discuss new community involved ideas, potentially organize a few community events once the pandemic is over, design a new TRENT logo, and finalize the Facebook and LinkedIn pages.
